

ACNpA Strategic Plan 2025–2030

About ACNpA

The Australian Clinical Neuropsychology Association (ACNpA) is an independent, not-for-profit organisation* established by clinical neuropsychologists, for clinical neuropsychologists. We aim to represent, connect, and advocate for our members while supporting lifelong professional growth.

Our mission is to promote and support high-quality, evidence-based clinical neuropsychology.

Our vision is for our communities to understand, appreciate and have access to clinical neuropsychology. We want a thriving clinical neuropsychology community delivering high-quality, evidence-based care to all who need it.

Our Core Values

- Evidence-Based Excellence: Advancing clinical neuropsychology through science and standards using Chelune (2017) as our definition for evidence-based practice.
- Professional Growth: Supporting lifelong learning and encouraging reflective practice (after Lilienfeld & Basterfield, 2020).
- Community and Connection: Working together to shape the future of clinical neuropsychology.
- Transparency and Accountability: Clear, open communication and decision-making.

Strategic Priorities (2025–2030)

ACNpA has identified four strategic pillars that guide our work over the next five years:

1. Professional Development
 - Providing and promoting high-quality professional development opportunities for clinical neuropsychologists
2. Advocacy and Promotion of the Profession
 - Represent the interests of clinical neuropsychologists
 - Promote public awareness of the profession
 - Facilitate member-led advocacy
3. Establishing Clinical Standards
 - Establish and maintain high-quality, evidence-based clinical standards for clinical neuropsychology
 - Setting a standard for clinical neuropsychology in Australia that meets or exceeds international benchmarks
4. Supporting Clinical Neuropsychologists
 - Supporting students and early career clinical neuropsychologists as they start their professional journey.
 - Providing opportunities for networking and knowledge sharing for clinical neuropsychologists across Australia and beyond.

Governance and Sustainability

We are committed to transparent governance, sound financial management, and organisational continuity.

Our commitment to members

ACNpA was created and works for clinical neuropsychologists. It needs and actively seeks member opinion, feedback and active involvement. We aim for accountability and transparency.
